

e-Invoicing, click-ready.

CII, UBL, ZUGFeRD. Make XML invoices readable. Right inside Dynamics 365.

XML becomes HTML.

e-Invoices arrive as XML. MetaShare displays them as formatted HTML in the Document Viewer. No separate reader, no download.

Open. Read. Continue.

Integration

MetaShare & FlexxStore Platform.

FlexxStore renders CII and UBL invoices via configurable XSLT transformations. The result is visible directly in the Dynamics 365 Document Viewer.

e-Invoice, made readable.

From XML data stream to readable document. In seconds.
