

# Follow-up without chasing.

Contracts, policies, reviews. The right documents surface themselves. Before a deadline tips.

# Reminders, built in.

MetaShare sets automatic reminders on documents with follow-up dates. No calendar entry, no manual tracking.

**Deadline approaches. Reminder goes out.**

## Integration

# MetaShare & FlexxStore Platform.

FlexxStore delivers document dates, reference IDs and contract references from Dynamics 365. This metadata enables MetaShare to trigger follow-ups with real ERP context.

# Deadlines under control.

No chasing. No checking. Automatic.
